To My Valued Patients,

This letter is to inform you that I have accepted a leadership role at Hendricks Regional Health as Vice President/Chief Clinical Integration Officer. As a result, I am no longer practicing with Indiana Adult & Pediatric Medicine (IAPM).

I truly regret that I was not able to share this news with every patient personally. After practicing for over 20 years, I have developed close relationships with many of you and your families. The decision to change my career path has not come easily. After a great deal of consideration, I decided to interview for the opportunity to become a part of the administrative leadership team at Hendricks Regional Health. It is my sincere hope that my experiences will give me insights as a leader that will benefit our organization, our outstanding physicians and providers, and most importantly, our patients such as you.

Over the past month or two, my emotions regarding this change have become real. While I am looking forward to new challenges, my feelings are bittersweet when I think about leaving my partners, our staff and my patients. I have sincerely appreciated the opportunity to care for you. In addition to providing you medical care, I have enjoyed complaining about the Colts, hearing political opinions and sharing stories about our families. Those personal relationships are why I went into medicine and they will be missed.

Looking forward, IAPM has hired an outstanding physician, Kelly Glover, MD, who has roots in Hendricks County. Dr. Glover previously worked for St. Vincent Health in Anderson. **If you have an appointment scheduled with me, Dr. Glover will see you at your scheduled time.** I am confident that Dr. Glover will continue to provide the same quality care that you have come to expect. I am sure you will be happy to know that Sherry will be working with Dr. Glover, making this transition a smooth one, and helping her become familiar with you and your family.

Since our practice is a busy one caring for many families, adding Dr. Glover was an important step. Even though the other doctors in the practice have relatively full schedules, any future appointments can be scheduled with Dr. Glover. For those gentlemen who are more comfortable seeing a male doctor, we anticipate that a new male physician will join us this summer. If at that time you would like to begin seeing this individual for your care, we can make that change.

Again, I want to thank you for the privilege of caring for you and your family. Your trust and friendship are truly appreciated. I will still be working hard to provide quality care throughout our community and I will be available to you if you have any questions in the future.

Sincerely,

A handwritten signature in black ink, appearing to read 'Barry'.

Barry Freeman, MD
